

# Dynamsoft

# **POWER YOUR DEVELOPMENT**

## FLEXIBLE CAPTURE SOLUTIONS

Build powerful solutions to capture barcodes,  
documents and IDs with Dynamsoft SDKs.

# INTRODUCTION

We've been powering digital transformations and driving cost savings for global financial, logistics, retail and healthcare companies for the past 20+ years.

## Computer Vision Specialists

We are a Canadian company specializing in computer vision developer tools. We are focused on helping developers integrate barcode scanning and document capture into web, desktop and mobile applications to streamline workflows and cut costs. Our SDKs are optimized for speed, accuracy and scale in the most rigorous enterprise settings.

# WHY DYNAMSOFT?

## Award Winning Support

We're renowned for our no-obligation tech support to get your POC up and running quickly. Our dedication to supporting every step of your journey has won us a Stevie Award for outstanding customer service.

## Enterprise Grade Security

Your data stays secure, encrypted and within your network. Security is a top priority. That's why we're ISO 27001 and O-TTPS certified.

## Flexible Licensing

Every scenario is different so we'll work with you to find licensing options that make sense for your business.

## 20+ Years in Computer Vision

We've spent 20+ years honing our software and helping to shape imaging industry standards. We're an associate member of the TWAIN working group.

# **DYNAMSOFT DOCUMENT VIEWER**

For developers who need to build fast, interactive document experiences into web apps, the Dynamsoft Document Viewer SDK offers a powerful, JavaScript-based solution. With minimal code, you can enable users to view, navigate, search, and annotate PDFs and scanned images — all in the browser. Optimized for performance, the SDK handles even 1000-page PDFs with ease, making it ideal for integrating into document-heavy workflows across industries.

## **Seamless In-Browser Viewing**

- Load and render large PDFs and image files (TIFF, PNG, JPEG, etc.) with speed and precision.
- Swap, share and delete pages within documents.

## **Rich Annotation Tools**

- Markup PDFs directly to improve clarity.
- Add stamps, freehand shapes or images.
- Add, edit and delete annotations in a separate layer.

## **Workflow Integration**

- Customize buttons and tooltips to enhance user experience.
- Export markups for downstream processing.
- Flexible APIs and full control over UI and behavior.
